

## The Public Finance Quarterly

### ANNOUNCES COMPETITION FOR PHD STUDENTS

Award winning papers will be published in The Public Finance Quarterly.

■ The Public Finance Quarterly is a professional financial periodical that has been in existence for more than fifty years. The bilingual, Hungarian and English, publication is published by the State Audit Office of Hungary. Our aim is to provide a credible view on the main features of the operation of the national economy, in particular the use of public funds, the auditing profession and the socio-economic and international contexts and correlations of the public sector.

According to classification by the Hungarian Academy of Sciences, the Public Finance Quarterly is a B category periodical. The quality is ensured by our publishing policy and technology (modern typographic design, permanent structure of topics, peer-review). Papers are Google optimized and uploaded to the largest international economic database (RePEc).
