Conference proceedings book

Dear author,

Couple of months ago your paper was selected as one of the best presented on the 12th International Conference on Finance and Banking that took place in Ostravice on 28-29 October 2009. This decision of the Program Committee qualified your paper to be included in the printed conference proceedings book. Please find enclosed a complimentary author's copy of this publication.

The printed conference proceedings book has been already submitted to Thomson Reuters for coverage in the Conference Proceedings Citation Index – a part of Web of Science. We are hoping that the evaluation process will be successful and the conference proceedings will appear in the world's most prestigious database of conference proceedings.

Thank you once again for participation on our conference and I am looking forward to meeting you again on the 13th International Conference on Finance and Banking in October 2011. You will receive a call for papers in due course.

With kindest regards,

Daniel Stavárek
Member of the Program Committee
